6th Seminar for Legal Practitioners

article, legal gender recognition

On 21-22 September 2020, TGEU's 6th Seminar for Legal Practitioners took place – for the first time in a completely virtual environment. 23 lawyers and legal experts from 13 countries came together to connect, exchange on best practices and discuss legal trans cases. Sessions covered a range of topics from trans minors, cross-border legal gender recognition to the protection of trans people in prison facilities. We would like to thank everyone who participated and made the seminar such an enriching event.
